

ARCTIC SHIPPING

INUIT CIRCUMPOLAR COUNCIL IS WORKING TOWARDS CLEAN AND SAFE SHIPPING

GREENHOUSE GASES

3% of global emissions are caused by shipping

BLACK CARBON

Emissions can deposit on ice speeding up melting

GREYWATER

Waste water discharged from ships can impact ocean health

UNDERWATER NOISE

Ship engines can severely disrupt animal behaviour and impact hunting

BALLAST WATER

Water from inside the ship hull can spread invasive species and spread pathogens

ICC IS ADDRESSING INUIT NEEDS AND WANTS THROUGH:

INTERNATIONAL MARITIME ORGANIZATION

Addressing Inuit priorities at the international level.

INUIT - CROWN PARTNERSHIP COMMITTEE

Supporting National approach to Inuit shipping priorities.

QANITTAQ RESEARCH INITIATIVE

Funding for research to identify gaps and develop and support Inuit led solutions to bring to the IMO and ICPC table.
